Part I: IPRC System and Reporting Tips

Logging In to the IPRC

To log in to the Title II Institution and Program Report Card reporting system (IPRC), go to: https://title2.ed.gov/Public/Login.aspx. Type in your username and password, check the box next to I have read and accept the terms and conditions of using this system, and click the Continue button.

Changing Your Password

The first time you log into the IPRC, you will be prompted to change your password. Your new password must meet the following requirements:

- Must be 8-12 characters in length;
- Cannot be one of your last 6 IPRC passwords;
- Must contain at least one letter;
- Must contain at least one number;
- Must contain at least one symbol;
- Must be changed at least every 90 days.
Setting Security Questions
After you change your password, you will see drop down menus containing security questions that will allow you to access the IPRC in the event you get locked out of the system. You will set up your security questions at the initial password change screen by selecting three different questions from the drop down menu in the Question 1, Question 2 and Question 3 boxes. After you have identified your questions, provide the answers in the Answer 1, Answer 2 and Answer 3 boxes. If you need to use this feature to unlock your account in the future, you will be required to provide the answers exactly as you have provided in this section.

After you have successfully changed your password and set up your security questions and answers, click Save to proceed.

Unlocking your Account
During subsequent logins, if you enter an incorrect username and/or password, you will see a message stating, “The username/password supplied is incorrect. Please check it before trying again.” If you enter an incorrect username and/or password three times during a twelve hour span, your account will be locked.

You can unlock your account by answering the three security questions that you provided at your initial login. Once you enter an incorrect password three times, you will see a message stating “Your account has been locked due to too many failed login attempts. You must provide your username and the answers to three security questions before you may continue.” Enter your username and click Continue.
After entering your username and clicking continue, you will see the three security questions. Type in the answers and click continue. This will allow you to log in and reset your password. If you do not remember the answers to your security questions and are unable to unlock your account, contact Westat’s Title II Support Center for assistance to unlock your account.
Invalid Username
If you receive a message saying “Your username is invalid,” this indicates that you have entered your username incorrectly. If you do not remember the correct username, click on the “Forgot your username or password?” on the login screen. On the next page, enter your email address and click Continue to have your username emailed to you.

Deactivated Accounts
IPRC accounts that are not used for more than 90 days are deactivated. All accounts are re-activated when the reporting system opens each February. If you get a message that your account is not currently active when trying to log in, contact Westat (title2@westat.com) to reactivate your account.
Navigating the IPRC

Once you log in to the IPRC, if your institution has both traditional route and alternative route programs, you may select which report you would like to work on using the report dashboard buttons at the right (by clicking “Start Report” or “Continue Report”) or the dropdown menus along the top of the page.

Once you select a report, you can access all sections of the report by clicking the links on the right side of the page or using the dropdown menus. You can also access other information, such as the instructions. You can switch reports using the dropdown menus, or by returning to the Welcome page via the Home link, and using the dashboard buttons.
Features of the IPRC
The following features can be found throughout the IPRC:

- Radio buttons
- Text boxes
- Check boxes
- Printer-friendly View
- Contact Us
- Check Spelling
- Buttons to Save and Reset

**Radio buttons.** You may choose only ONE response when using radio buttons. To select a radio button, click on it with your mouse. Once a radio button is selected, the only way to deselect it is to choose another radio button in that response.

**Text boxes.** Single-line text boxes are usually limited to the size of the displayed box. Multi-line text boxes do not have a character limit; however, we encourage you to be brief, concise and to the point when entering text.
Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

a. integrate technology into curricula and instruction
   - Yes
   - No

b. use technology effectively to collect data to improve teaching and learning
   - Yes
   - No

c. use technology effectively to manage data to improve teaching and learning
   - Yes
   - No

d. use technology effectively to analyze data to improve teaching and learning
   - Yes
   - No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Text Box
**Check boxes.** You may choose more than one check box in a single response. To select a check box, click your mouse in the box. To deselect a box, click your mouse in the box (or press the space bar) again.

![Check Boxes](image)

**Get support via Send Mail feature.** If you have a question as you work on your report, click the Home link in the upper left corner. The text on the home page provides guidance regarding who to contact depending on your question. You can then use the Send Mail feature to contact the Title II Support Center, your state, or both your state and the Title II Support Center.
**Check Spelling.** The reporting system has a built-in spell checker, and will underline in red possible spelling errors. You can also click on the "Check Spelling" button. A new window will open that lists spelling errors and suggests replacements. This feature is similar to those used in word processing programs. In order for the spell-check feature to work properly, your browser must allow pop-up windows. Please disable any pop-up blockers when using this feature.
**Buttons.** At the bottom of most pages are floating boxes with **Save** and **Reset** buttons. A description of each is below.

**Save:** Selecting this button saves data in the section and keeps you in that section. If you are done reviewing and/or entering data, please select **This Page is Completed**. If you will be working on the same section for a long time, we recommend that you save your data at least every 15 minutes. Once you successfully save a page, the color status on your report menu will change from red to green.

**Reset:** This button will reset all fields in the section to their last saved value. For example, if you make changes to a saved section but do not want to save the changes, use the **Reset** button. The section will return to how it appeared the last time you saved it.
Title II Contacts

Completing your Title II Institution Report Card requires collaboration between individuals within your institution, your State Title II Coordinator, the testing companies used in your state, and Westat’s Title II Service Center. With so many organizations and individuals involved in the reporting process, it is important for you to know who to contact when questions or problems arise.

- Contact your State Title II Coordinator if you have questions about your program type (traditional, IHE-based alternative route, or non IHE-based alternative route) or your program’s at-risk or low-performing status.

- Contact Westat’s Title II Service Center if you have questions or problems related to the Title II Institution Report Card reporting system (i.e., difficulty logging in, error messages when you try to enter data) or questions regarding the interpretation of a reporting element.

- Contact your testing agency if you have questions or problems related to the timeline or process of reporting and verifying pass rates.

State Title II Coordinators:

Find your state coordinator and contact information on the Title II website here: [https://title2.ed.gov/Public/ContactsState.aspx](https://title2.ed.gov/Public/ContactsState.aspx).

Westat’s Title II Service Center:

✉️ [Title2@westat.com](mailto:Title2@westat.com) ☎️ (877) 684-8532

Preloaded Data in the IPRC

Several sections of the IPRC are preloaded with data from your previous year’s IPRC report. Additionally, Westat works directly with State Title II Coordinators and testing company representatives in order to upload pass rates into Section III of the IPRC. The table below identifies each section of the report card and indicates the source of data.

### Preloaded Data in the IPRC

<table>
<thead>
<tr>
<th>Section of the Institution and Program Report Card</th>

*These sections of the Institution and Program Report Card are not preloaded. You will need to enter the data into the report each year.*
Part II: Institution and Program Report Card Sections

Institution Information

Institution Information requires institutions to provide contact information for their program and indicate whether or not the institution is a member of an HEA Title II Teacher Quality Enhancement Partnership (TQP) grant awarded by the U.S. Department of Education. If yes, institutions are to provide additional identifying information about the TQP grant.

Section I: Program Information

List of Programs

Section I: List of Programs requires institutions to list each initial teacher preparation program within the institution, and indicate whether or not the program is a TQP grant member. For the purposes of this section, “teacher preparation program” includes individual programs within the institution. For example, an institution may offer a Special Education teacher preparation program, an Elementary Education teacher preparation program, and a Secondary English teacher preparation program; each program should be listed separately in this section. For a traditional report, list all traditional programs within the institution. For an alternative report, list all alternative programs within the institution. The system will automatically total the number of programs for you.

Program Requirements

Program Requirements is split into four sections: Admissions, Undergraduate Requirements, Postgraduate Requirements, and Supervised Clinical Experience (discussed in subsequent page of this guide).

In Admissions, institutions report information on the timeframe for admitting students into the program and whether the program conditionally admits students, and link to program admission requirements. Institutions may also enter additional information in the optional textbox.

Undergraduate Requirements and Postgraduate Requirements require institutions to report on the elements required for entry into and exit from any initial teacher certification program(s) at either the undergraduate or postgraduate level. Entry/exit requirements are listed along with radio buttons to select Yes or No. Yes indicates the element is required for entry into or exit from the teacher preparation program, while No indicates the element is not required for entry into or exit from the teacher preparation program. Institutions are also required to report the minimum GPA required for entry and exit (if required), and the median GPA for individuals entering the program and for individuals completing the program.

For purposes of reporting, the entry and exit requirements refer to elements required for entry into or exit from the teacher preparation program, not the institution of higher education (IHE).
Example: An IHE requires a minimum high school GPA for entry into the IHE at the undergraduate level. The traditional teacher preparation program, which is an undergraduate program within that IHE, does not specifically require a minimum high school GPA. It does require a minimum GPA in content area coursework. The correct way to report on these elements is “No” for “Minimum high school GPA” since it is not a specific admissions requirement of the teacher preparation program, and “Yes” for “Minimum GPA in content area coursework.”

Supervised Clinical Experience requires institutions to report data on supervised clinical experience data and requirements in their initial teacher certification programs. Data on the following elements of supervised clinical experience will be reported:

- Average number of clock hours of supervised clinical experience required prior to student teaching;
- Average number of clock hours of supervised clinical experience required for student teaching;
- Average number of clock hours of supervised clinical experience required for mentoring/induction support;
- Number of full-time equivalent faculty supervising clinical experience during this academic year;
- Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff); and
- Number of students in supervised clinical experience during this academic year.

Supervised clinical experience is defined as a series of supervised field experiences (including student teaching) with PreK-12 students that occur as a sequenced, integral part of the preparation program prior to the candidate becoming the teacher of record. Section 202 (d)(2) of the Higher Education Act, as amended in 2008, describes features of clinical experience. Courses in the curriculum that include the activities described in Section 202(d)(2) may be considered clinical coursework. The curriculum policies of each state and its institutions will identify coursework as nonclinical or clinical. Alternative route programs can work with their state to determine what courses are supervised clinical experiences if the alternative route program’s courses do not meet the definitions above.

“Average number of clock hours required” refers to hours per teacher preparation program participant. To the extent possible, responses are to separate pre-student teaching clinical experience from student teaching. The intent is not to aggregate across teacher preparation program participants, but rather to assess per-person clock hours. “Clock hours” does not refer to semester or credit hours, but actual time spent on these activities. In the term “supervised clinical experience,” it’s the overall experience that is supervised, not every moment of the experience. No faculty to student ratio is required, nor expected.

Supervising faculty are defined as all persons whom the institution regards as having faculty status, who were assigned by the teacher preparation program to provide supervision and evaluation of student teaching and who have an administrative link or relationship to the teacher preparation program. When reporting on the number of faculty in supervised clinical experience,
do not weight the number of faculty based on the number of teacher preparation program participants they are supervising or the number of credit hours their supervision represents. A full-time faculty member is counted as 1 FTE. A half-time faculty member is counted as 0.5 FTE. PreK-12 staff (whether teachers or other educational leaders) who are engaged significantly with the teacher-candidates during their supervised clinical experience – in terms of spending significant amounts of time working with them – may be included in the count of adjunct faculty. We suggest three criteria, any one of which would imply inclusion in the count:

- If they spend a number of hours each week observing, supervising or discussing the clinical experience with the teacher-candidates or other teacher preparation program faculty;
- If they receive a stipend from the teacher preparation program for their participation;
- If they are considered part of the teacher preparation program, in terms of recognition in brochures or other program descriptions provided to the state or the general public.

**Enrollment**

Enrollment requires institutions to report the number of students enrolled in the initial teacher preparation programs by total enrollment, gender and race/ethnicity. For purposes of this data collection, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not yet completed the program. An individual who completed the program within the academic year being reported should be counted as a program completer, and not an enrolled student. Institutions will submit enrollment data for each academic year, which is defined as September 1 through August 31 of each year.

While institutions are required to report enrollment information, it is important to note that gender and race/ethnicity are often voluntarily self-reported data, and some individuals may choose to withhold their gender or race/ethnicity. When reporting this data, states may find that the sum of their gender and race/ethnicity categories may not add up to 100 percent of their total enrollment. The U.S. Department of Education recognizes that demographic data reported in this section is obtained through self-identification of enrollees and is not mandatory for individuals to provide. States should provide the data they have even if it is not complete. For guidance from the USDOE on the collection and reporting of racial and ethnic data, please see [http://edocket.access.gpo.gov/2007/pdf/E7-20613.pdf](http://edocket.access.gpo.gov/2007/pdf/E7-20613.pdf).

For purposes of reporting, the enrollment section refers to the number of teacher candidates enrolled in the teacher preparation program, not the total number enrolled in the IHE.

**Examples:**

An enrolled student self-identifies as a white female. *This student should be reported under “Total Enrollment”, “female” in the gender section and “White” under the race/ethnicity categories.*

An enrolled student does not provide information regarding gender or race/ethnicity. *The correct way to report this student is to include him in the “Total Enrollment” count, but not include him in any gender or race/ethnicity categories.*
A student is enrolled in the program during the fall semester and completes the program during the spring semester. The correct way to report would be to count this student as a program completer, not an enrolled student.

Teachers Prepared

Teachers Prepared requires institutions to report the number of program completers by Subject Area and by Academic Major.

In the Teachers Prepared by Subject Area table, institutions report the number of initial teacher certification program completers by subject area. Subject area refers to the area in which individuals are prepared to teach.

For each subject area listed, provide the number of program completers prepared to teach that subject, choosing the subject area that best fit the area in which the individual was prepared. Individuals can be counted more than once. For example, if an individual was prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. Cells may be blank if no individuals were prepared in a particular subject area.

In the Teachers Prepared by Academic Major table, institutions report the number of initial teacher certification program completers by academic major. Academic major refers to the actual major granted to an individual.

For each academic major listed, provide the number of program completers in that major, choosing the academic major that best fit the major offered by their institution. For example, an individual that majored in Geology would have been counted in the “Geological and Earth Sciences/Geosciences” academic major. The list of majors includes several “Teacher Education” majors, as well as several non-education majors. If an individual majored in Chemistry, that individual should be counted in the “Chemistry” academic major category rather than the “Teacher Education–Chemistry” category. Individuals may be counted more than once. If an individual majored in Secondary Math Education, that individual should be counted in the “Teacher Education-Secondary Education” academic major category, as well as the “Teacher Education–Mathematics” category. Cells may be blank if no individuals were prepared in a particular academic major.

Program Completers

Program Completers requires institutions to report the total number of initial teacher certification program completers for the current year and previous two academic years. This count is an unduplicated count of individuals completing the teacher preparation program during the academic years being reported. For the 2018 report, states will provide the number of program completers for AY 2014-15, AY 2015-16 and AY 2016-17.

For purposes of reporting, a program completer is defined as a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all
those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program’s requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

Section II: Annual Goals and Assurances

Annual Goals requires institutions to set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary. Annual Goals is split into the following four teacher shortage area sections: Mathematics, Science, Special Education, and instruction of limited English proficient students (LEP).

For each teacher shortage area, institutions will report on the goal they set for the prior academic year, whether or not they met the goal, and strategies and lessons learned in meeting the goal. Additionally, institutions will indicate their goal for the current academic year and the next academic year.

If your institution does not prepare teachers in a teacher shortage areas listed, please indicate that in the appropriate radio button for each academic year in that teacher shortage area.

Assurances requires institutions to certify that they are in compliance with assurances related to their teacher preparation. Institutions should be prepared to provide documentation and evidence for responses, when requested, to support the assurances.

All responses from the previous year’s report are preloaded into this section. Please review these data to ensure that the information is correct and current.

Section III: Pass Rates

Westat will work with State Title II Coordinators and testing company representatives in order to upload pass rates into Section III of your Institution and Program Report Card. In accordance with testing company verification schedules, we anticipate that pass rates will be uploaded into reports in mid-April. Once pass rates are uploaded, you will receive a notification email alerting you that pass rates are available for your review in the report.

Assessment Pass Rates: Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative. After reviewing, save the page using the floating save box at the bottom of the page.

Summary Pass Rates: Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative. After reviewing, save the page using the floating save box at the bottom of the page.
Section IV: Low-Performing

Section IV requires institutions to respond to questions about the accreditation and low-performing status of their teacher preparation program.

All responses from the previous year’s report will be preloaded into this section. Please review these data to ensure that the information is correct and current.

Section V: Use of Technology

In this section, provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the elements listed above are not currently in place.

For Title II reporting purposes, universal design for learning is defined as a scientifically valid framework for guiding educational practice that provides flexibility in the ways information is presented, in the ways students respond or demonstrate knowledge and skills, and in the ways students are engaged; and reduces barriers in instruction, provides appropriate accommodations, supports, and challenges, and maintains high achievement expectations for all students, including students with disabilities and students who are limited English proficient.

Text from the previous year’s report will be preloaded into the text box. Please review these data to ensure that the information is correct and current. The text box does not have a character limit. However, we encourage you to be brief, concise and to the point when entering text. Please be sure to use the Check Spelling feature prior to submitting your report.

Once you have entered or revised information in this section, be sure to click the Save button.

Section VI: Teacher Training

In this section, provide information about the preparation of both general and special education teachers to teach students with disabilities and students who are limited English proficient. Include planning activities and timelines if these activities are not currently in place.

Text from the previous year’s report will be preloaded into the text box. Please review these data to ensure that the information is correct and current. The text box does not have a character limit. However, we encourage you to be brief, concise and to the point when entering text. Please be sure to use the Check Spelling feature prior to submitting your report.

Once you have entered or revised information in this section, be sure to click the Save button.
Section VII: Contextual Information (optional)

In this optional section, you may choose to provide any additional information that describes your teacher preparation program(s) or provides additional context for the information in the report.

You may also attach information to this report card. To attach information by uploading a supporting document, under the Supporting Files subsection of the Contextual Information page, click the Browse button to navigate your computer and select a document. Once you have selected your document, click open. Click the Upload button to finish the upload process. Please note you can only upload Microsoft Word, Microsoft Excel or Adobe PDF documents. In the Link Text box, provide a brief title or description of the document. The files you upload will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Text from the previous year’s report will be preloaded into the text box. Please review these data to ensure that the information is correct and current. The text box does not have a character limit. However, we encourage you to be brief, concise and to the point when entering text. Please be sure to use the Check Spelling feature prior to submitting your report. Once you have entered or revised information in this section, be sure to click the Save button.
Certification

Title II Institution and Program Report Cards are due annually on April 30. Neither the U.S. Department of Education nor Westat has the authority to grant extensions to the deadline. The certification period will be open from April 16 through April 30, 2018. You will only be able to certify your report within that timeframe.

When all sections of the report are complete, follow these steps to certify and submit your report:

- Select the check box under “Certification of submission.”
- Enter your name and title.
- Select the check box under “Certification of review of submission.”
- Enter the name and title of the reviewer. The reviewer may be the president, dean, provost, or any other representative of the institution that has reviewed the report for accuracy.
- Finally, click the “Certify and Submit Report Card” button. Once you certify and submit your report, it becomes read-only and you will no longer be able to make changes.

Certification Checklist

Throughout the data collection, the system continuously updates a Certification Checklist providing a list of items that must be resolved prior to certifying the report. If the report is not complete, or if there are any data errors within the report, the system will present a list of items to resolve. You must complete all questions and resolve any errors before you are able to certify and submit your report.
Comparison with Last Year

For your reference and review, the system displays a comparison of data reported this year with data reported last year, as well as a percent change from last year to this year. Please use this feature to review any significant changes in your data as a way to double-check for accuracy.
