HEA Title II

State Report Card on the Quality of Teacher Preparation and State Initial Teacher Assessment and Credentialing **SRC**

Office of Postsecondary Education U.S. Department of Education

Section 205 of Title II of the *Higher Education Opportunity Act* mandates that the Department of Education collect data on state assessments, other requirements, and standards for teacher certification and licensure, as well as data on the performance of teacher preparation programs. The law requires the Secretary to use these data in submitting an annual report on the quality of teacher preparation to the Congress.

Paperwork Burden Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1840-0744. Public reporting burden for this collection of information is estimated to average 146 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is *mandatory* Public Law 110-305, section 205, Higher Education Act of 1965, as amended in 2008 by the Higher ED) and the Consolidated and Further Continuing Appropriations Act, 2015 (PL 113-235)). If you have any comments concerning the accuracy of the time estimate, suggestions for improving this individual collection, or if you have comments or concerns regarding the status of your individual form, application or survey, please contact U.S. Department of Education, Freddie Cross, 400 Maryland Ave., SW, Washington, DC 20202, Freddie.cross@ed.gov or (202) 453-7224 directly.

Note: Key terms and phrases in this questionnaire are defined in the glossary of key terms on p. 16-18.

Section II: Assessing Program Performance

Instructions:		Each state must conduct an assessment to identify low-performing teacher preparation programs, and must provide an annual list of low-performing programs and those at risk of being low performing (these programs are to be identified in Section I. List of Programs). States are also required to describe the assessment to identify low-performing programs. In this section, describe the state criteria for assessing the performance of teacher preparation programs in the state. Include indicators of academic content knowledge and teaching skills of prospective teachers enrolled in such program. (§205(b)(1)(F), §207(a))					
No	te:	This section is preloaded from the state's prior year State Report Card.					
1.	Check each	criterion your state uses to assess the performance of teacher preparation programs:

Section III: Teaching Credentials

Teachers Credentialed

Instructions: Provide the total number of persons receiving an initial teaching credential in the state, and the subset of

those who completed their teacher preparation programs in another state. (§205(b)(1)(H))

Note: States enter the data in this section of the report each year.

Glossary of Key Terms:

Academic major: The actual major(s) declared by the program completer. Post-baccalaureate

programs should report on the undergraduate major or the academic major of the

most recent degree earned by the prospective teacher.

Academic year: A period of 12 consecutive months, starting September 1 and ending August 31.

Adjunct Faculty Supervising Clinical Experience: Teacher preparation provider staff (whether teachers or other

educational leaders) who are engaged with the teacher-candidates during their supervised clinical experience, in terms of spending time observing or supervising candidates or discussing the clinical experience with candidates or other teacher

preparation program faculty.

Alternative route to a teaching credential: A teacher preparation pathway that primarily serves candidates that are

the teacher of record in a classroom while participating in the route. Alternative

routes to a teaching credential are defined as such by the state.

Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience: PreK-12 staff who teach in the classrooms

in which candidates are placed for clinical experiences, who are engaged with teacher-candidates during their supervised clinical experience, in terms of observing or supervising candidates or discussing the clinical experience with

candidates or other teacher preparation program faculty.

Enrolled student: An individual who has been admitted, enrolled, and registered in a teacher

preparation program and participated in the program during the academic year. Participation may include taking a course, participating in clinical experience, or participating in other program activities. Individuals who were enrolled and completed the program during the academic year are counted in the total count of enrolled students as well as in the subset of program completers (see "program

completer").

Faculty supervising clinical experience: All persons whom the institution regards as having faculty status, who were

assigned by the teacher preparation program to provide supervision and evaluation of student teaching and who have an administrative link or relationship to the

teacher preparation program.

Full-time equivalent faculty: Each faculty member who is employed full-time by the IHE counts as 1. Each

faculty member who is employed part-time by the IHE is counted in proportion with the amount of time the individual is employed (for example, a faculty member

who is employed half-time is counted as .5).

Individualized education program team: The term `individualized education program team' or `IEP Team' means a

group of individuals composed of the parents of a child with a disability; not less than one regular education teacher of such child (if the child is, or may be, participating in the regular education environment); not less than one special education teacher, or where appropriate, not less than one special education provider of such child; a representative of the local educational agency who is qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of children with disabilities; is knowledgeable about the general education curriculum; and is knowledgeable about the availability of resources of the local educational agency; an individual who can interpret the instructional implications of evaluation results, who may be a member of the team described above; at the discretion of the parent or the agency, other individuals

who have knowledge or special expertise regarding the child, including related services personnel as appropriate; and whenever appropriate, the child with a disability.

Nonclinical coursework:

Any course in the teacher preparation program curriculum that focuses on content, such as academic subject matter, and does not require students to participate in the activities of supervised clinical experience as described in the glossary definition may be counted as nonclinical coursework. The curriculum policies of each state and its institutions will identify coursework that is nonclinical or clinical. See supervised clinical experience.

Pass rate:

The percentage of students who passed assessment(s) taken for an initial teaching credential in the field of preparation.

- Single assessment pass rate: The percentage of students who passed the assessment among all who took the assessment.
- Summary pass rate: The percentage of students who passed all tests they took for their area of specialization among those who took one or more tests in their specialization areas.

Program completer:

A person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for an initial teaching credential may not be used as a criterion for determining who is a program completer.

Scaled score:

A scaled score is a conversion of a student's raw score on a test or a version of the test to a common scale that allows for a numerical comparison between students. Because most major testing programs use multiple versions of a test, the scale is used to control slight variations from one version of a test to the next. Scaled scores are particularly useful for comparing test scores over time, such as measuring semester-to-semester and year-to-year growth of individual students or groups of students in a content area. However, within the same test, different content areas are typically on different scales, so a scaled score of 24 in Mathematics may not mean the same as a scaled score of 24 in Reading.

Supervised clinical experience: A series of supervised field experiences (including student teaching) with PK-12 students that occur as a sequenced, integral part of the preparation program prior to the candidate becoming the teacher of record. Please note that Title II, Section 202(d)(2) describes features of clinical experience. Courses in the curriculum that include the activities described in 202(d)(2) may be considered clinical coursework. The curriculum policies of each state and its institutions will identify coursework that is clinical and nonclinical.

Teacher credential assessment: A test or other structured method that measures the qualifications of prospective teachers, has a pass-fail outcome, and is used by the state for teacher credentialing.

Teacher preparation program:

A program, whether traditional or alternative, offered by a teacher preparation provider that leads to a specific state teacher credential in a specific field.

Teacher preparation provider:

An IHE or other organization that is authorized by the state to prepare teachers.

Universal design for learning:

A scientifically valid framework for guiding educational practice that provides flexibility in the ways information is presented, in the ways students respond or demonstrate knowledge and skills, and in the ways students are engaged; and reduces barriers in instruction, provides appropriate accommodations, supports, and challenges, and maintains high achievement expectations for all students, including students with disabilities and students who are limited English proficient.
